

“Between A Rock And A Hard Place”

Carbon 12 is proud to present Farzan Sadjadi’s first solo exhibition opening on 18th of January 20:00

“Emerging alone from the “Seven Positions”, Farzan Sadjadi delivers his powerful compositions further to remind us of the paradoxical world we live in. The subjects contemporary, the works provocative, the brush strokes mature. Sadjadi takes us to a desolated and cold landscape, where two animals perform a splendid ritual dance in preparation for battle. The canvas reminds us of an unpleasant winter day, where the snow has already lost its immaculate purity. We live in a world where beauty and violence continually coexist. Sadjadi again catches us “Between a Rock and a Hard Place”.
