

"Memories from the Future"

You are invited to the opening of Gil Heitor Cortesao's solo exhibition on Monday the 19th of October from 20:00

Carbon 12 proudly presents Gil Heitor Cortesao's "Memories from the Future", the inaugural exhibition of the new gallery space in Al Quoz. "Using images of abandoned buildings and haunting architectural interiors, Gil Heitor Cortesao's paintings re-investigate the idea of modernity, and re-open the discourse of utopia. His scenarios provide a plateau for reflection, and reconsideration of visions and visionaries. "Memories of the future" provides contemporary food for thought."
